PROFESSIONAL SUMMARY :

Backend-focused Full Stack Developer (MERN Stack) with 6 months of real-time experience at ASR Solutions through a Training & Placement Program. Experienced in developing backend applications using Node.js and TypeScript, building RESTful APIs, and integrating Firebase Firestore databases. Trained in the MERN stack with hands-on practice in React and frontend fundamentals.

TECHNICAL SKILLS :

- **Backend:** Node.js, Express.js, TypeScript
- **Database:** Firebase Firestore
- **Frontend (Basic):** HTML, CSS, JavaScript, React.js
- **Tools:** Git, GitHub, Postman
- **Concepts:** REST APIs, CRUD Operations

PROFESSIONAL EXPERIENCE :

Backend Developer / Full Stack Developer (MERN Stack)
ASR Solutions – Tenkasi
June 2025 – November 2025

- Developed backend services using Node.js with TypeScript following clean and scalable architecture.
- Designed and implemented RESTful APIs for real-time web applications.
- Integrated Firebase Firestore for data storage and retrieval.
- Implemented CRUD operations and backend validations.
- Collaborated with frontend team to integrate APIs with UI components.
- Gained real-time project experience under senior developer mentorship.

PROJECTS :

Backend API for Web Application

- Developed REST APIs using Node.js and TypeScript.
- Implemented Firebase database integration for storing and managing user data.
- Added authentication and data validation logic.
- Tech Stack: Node.js, TypeScript, Firebase

Frontend Practice Project (React)

- Built a basic React application as part of MERN stack training.
- Integrated frontend with backend APIs for CRUD operations.
- Focused on component-based UI and API communication.
- Tech Stack: React.js, JavaScript

EDUCATION :

Bachelor of Commerce (B.Com)
sri parasakthi college for women,Courtallam
Year of Passing: 2024
